All tenders in one place!

Why to take part in tenders?

Private tenders and public procurement are a huge multi-billion market for businesses all over the globe. Access to international tenders opens great business opportunities for selling more than 25.000 kinds of various goods, services and works to governments and international agencies, expanding your customer-base and developing your business. In addition to financial benefits, a vendor's status as an accredited government or international organization supplier creates a staid and respectful corporate image.

Throughout the world working with tenders and benefiting from them is very common. Each day, over 10.000 tenders are published. Now this profitable market is open to all suppliers and investors from across the globe.

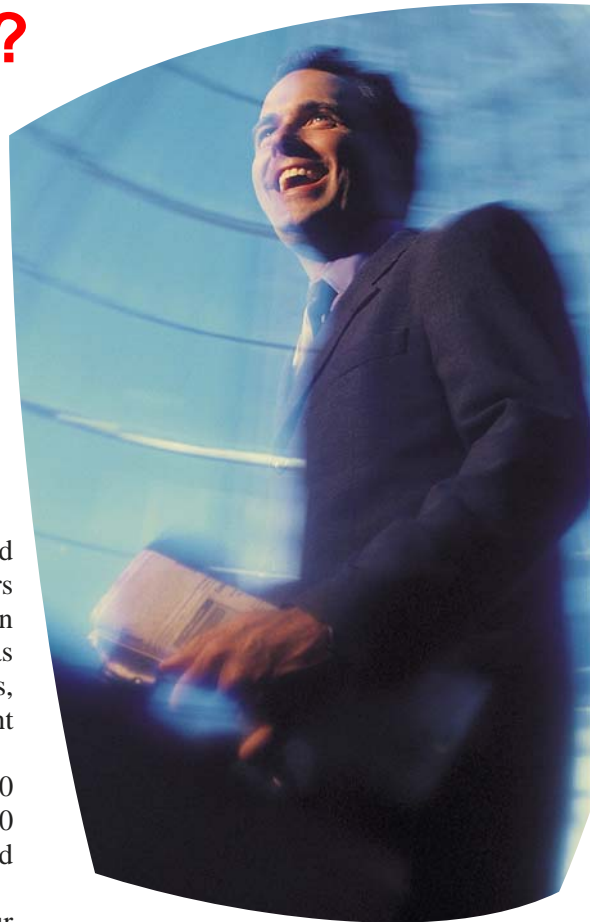

Why not take advantage of the opportunity?

Why Marketplace?

Marketplace Tenders™ is the largest, innovative, up-to-the-minute and the most comprehensive in the world source of current international tenders (Tender notices and RFOs for works, supplies and services under Open procedures, Negotiated procedures, Limited procedures, as well as Expressions of interest, Contract awards, Pre-information notices, Procurement forecasts), government contracting and procurement opportunities relevant to your business sector.

Marketplace, being an active player in the field of tendering for over 10 years, covers all major markets and emerging economies (around 15.000 notifications weekly), which together amount to over 90% of global trade and economic development.

More than 1.000 clients all over the world enjoy benefits of our subscription! Why not to join them?

How can we help you?

All international tenders affordable to everyone. As our subscriber you will be provided with top-quality service and latest information about all major tender notices at reasonable one-off fee without any extra service dues or hidden payments, which enables you to save time and money on your procurement requirements. We work 24 hours a day, 7 days a week to obtain, systemize, translate, ensure uninterrupted operation and provide you with the latest international bids. Because all orders are processed individually, this eliminates the need to waste time while searching and analyzing hundreds of notices and RFP's matching your unique requirements. Our consultants do it for you. Clients focus on their primary function to prepare a better tender offer. Thus, we considerably save your valuable time and hardly earned money!

Unique service guarantee. That is why only we provide our clients with minimum amount of notifications under “no result-no fee” basis. Should you receive fewer notices than Minimum amount of your subscription format, we reimburse your money!

All international tenders in understandable language. Because we have own translation department, all international tender notices are translated into language understandable to you. All government and private procurement opportunities will be provided to you in English.

State-of-the-art enhanced customer support. We do not stop at the initial stage providing only with tender notice. Subscriber is assisted through the whole tender process and consulted at every stage. While we do all preparatory work for you, you need only to prepare requested documentation.

All our talented specialists possess wealth of experience in the public procurement domain and they will be glad to assist you!

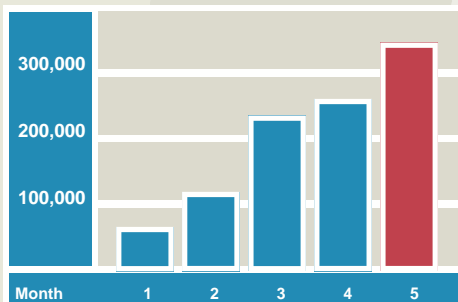

Latest trends and up-to-the-minute news. Together with notices, we also provide you with bidding guidelines, news and latest developments in the sector of private and public tendering, subcontracting opportunities, laws and regulations on procurement procedures in different countries, etc. This is a great way to stay well-informed all the time!

Encouraging statistics

Our surveys show that 62% of companies that regularly take part in international tenders win at least one contract within the first year!

Thus, we strongly encourage all manufacturers & exporters looking new business opportunities to use our Marketplace Tenders™ Service.
